DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.
2. Applicant's submission filed on September 04, 2007 has been entered and made of record.

Response to Arguments

Claim Rejections - 35 USC § 112

3. Applicant's arguments with respect to Claims 1 – 6, 10 – 26 have been fully considered and the rejection 35 USC 112 of Claims 1 – 6 and 10 – 14 has been withdrawn. Examiner rejects Claims 15 – 26 under 35 USC 112 and requests Applicant to amend claim limitation "a variable" to clarify what that variable correspond to in each of the claims 15 – 26.

Allowable Subject Matter

4. Claims 1 – 6, 10 – 14 are allowed.

Claim Objections

5. Claims 15 – 19 are objected to because of the following informalities:
Claim 15 recites "...wherein the state is a temperature of the unit; wherein the unit with a thermal capacitance also has a second temperature;".

Replace "wherein the state is a temperature of the unit; wherein the unit with a thermal capacitance also has a second temperature;" with "...wherein the state is a temperature of the unit; wherein the unit with a the thermal capacitance also has a second temperature sensor;"

Claim 17 recites "...to determine the first temperature and a second temperature sensor ...". Replace recites "...to determine the first temperature and a second temperature sensor ..." with "...to determine the first temperature and a the second temperature sensor ..."

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 15 – 26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Examiner requests the Applicant to amend claim limitation "a variable" to clarify what that variable correspond to in each of the claims 15 – 26. Examiner further requests to specify any support for such amendments in the instant specification disclosure.
